POLICY JUSTIFICATION

Spain – F-404 Engine Fans

The Government of Spain has requested to buy an additional two hundred fifty (250) F-404 engine fans that will be added to a previous implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales (FMS) case was valued at \$98.80 million (\$11.25 million in MDE) and included fifty (50) F-404 engine fans, Computer Power Supply (CP-1325/APG-65), Receiver Exciter (R-2089/APG-65), spare parts, consumables, and accessories, classified software delivery and support. This notification is for a combined total of two hundred fifty (250) F-404 engine fans. The following non-MDE items will also be included: Computer Power Supply (CP-1325/APG-65), Receiver Exciter (R-2089/APG-65), associated services and equipment, spare parts, consumables, and accessories, and classified software delivery and support; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$200 million.

The proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a North Atlantic Treaty Organization (NATO) ally that is an important force for political stability and economic progress in Europe.

The proposed sale will improve Spain's capability to meet current and future threats and will enhance interoperability with U.S. forces and other allied forces. The enhanced capability will also strengthen its homeland defense. Spain will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The F-404 engine fans will be transferred from United States Navy stock. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Spain.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
