## POLICY JUSTIFICATION

### Lebanon – M1151A1 High Mobility Multi-Purpose Wheeled Vehicles

The Government of Lebanon has requested to buy an additional ninety (90) M1151A1 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales case, valued at \$12.26 million (\$10.85 million in MDE), included fifty M1151A1 HMMWVs. This notification is for a combined total of one hundred forty HMMWVs. The following non-MDE items will also be included: RF-7850M-HH multiband handheld radio; Global Positioning System receiver; Quicklook electronic counter-countermeasures waveform; spare parts, repair parts, publications and technical documentation; training; U.S. Government and contractor engineering; technical and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$34.5 million.

This proposed sale will support the foreign policy and national security of the U.S. by improving the security of a partner country that continues to be an important force for political and economic stability in the Middle East.

The proposed sale will provide a highly mobile and light combat vehicle capability enabling Lebanese Armed Forces to rapidly engage and defeat perimeter security threats and readily employ counter- and anti-terrorism measures. This acquisition will afford additional military-to-military tactics and operational training among the U.S. Army's and Lebanon's leadership and soldiers. Lebanon will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be AM General, located in South Bend, IN. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Lebanon.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
