

DEPARTMENT OF ENERGY

Certification Notice – 258; Notice of Filing of Self-Certification of Coal Capability Under the Powerplant and Industrial Fuel Use Act

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of filing.

SUMMARY: On September 7, 2021, South Field Energy LLC (SFE), as owner and operator of the South Field Energy Project, a new baseload electric generating powerplant, submitted a coal capability self-certification to the Department of Energy (DOE). The Powerplant and Industrial Fuel Use Act of 1978 (FUA), as amended, and regulations thereunder require DOE to publish a notice of filing of self-certification in the *Federal Register*.

ADDRESSES: Copies of coal capability self-certification filings are available for public inspection, upon request, by contacting the Office of Electricity by electronic mail to *Electricity.Exports@hq.doe.gov*.

FOR FURTHER INFORMATION CONTACT: Marina Fennel at (240) 702-6156, *Electricity.Exports@hq.doe.gov*.

SUPPLEMENTARY INFORMATION: On September 7, 2021, SFE, as owner and operator of a new baseload electric generating powerplant, submitted a coal capability self-certification to the DOE pursuant to section 201(d) of the Powerplant and Industrial Fuel Use Act of 1978 (FUA), as amended (42 U.S.C. 8311(d)), and DOE regulations in 10 CFR 501.61(a). The FUA and regulations thereunder require DOE to publish a notice of filing of self-certification in the *Federal Register*. See 42 U.S.C. 8311(d)(1); 10 CFR 501.61(c). Section 201(a) of the FUA provides that “no new base load electric powerplant may be constructed or operated without the capability to use coal or another alternate fuel as a primary energy source.” 42 U.S.C. 8311(a). Pursuant to section 201(d) of the FUA, in order to meet the requirement of coal capability, the owner or operator of such a facility proposing to use natural gas or petroleum as its primary energy source shall certify to the Secretary of

Energy (Secretary) prior to construction, or prior to operation as a base load electric powerplant, that such powerplant has the capability to use coal or another alternate fuel. *See* 42 U.S.C. 8311(d)(1). Such certification establishes compliance with FUA section 201(a) as of the date it is filed with the Secretary. *Id.*; 10 CFR 501.61(b). The following owner of a proposed new baseload electric generating powerplant has filed a self-certification of coal-capability with DOE pursuant to FUA section 201(d) and in accordance with DOE regulations at 10 CFR 501.61:

OWNER: South Field Energy LLC

DESIGN CAPACITY: 1,182 megawatts

FUEL TO BE USED: Natural gas

PLANT LOCATION: 43250 Hibbetts Mill Road, Wellsville, OH 43968

IN-SERVICE DATE: September 2021

Signing Authority:

This document of the Department of Energy was signed on February 6, 2026, by Catherine Jereza, Assistant Secretary, Office of Electricity, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the *Federal Register*.

Signed in Washington, DC on March 6, 2026.

Treana V. Garrett
Federal Register Liaison Officer,
U.S. Department of Energy
