SUPPLEMENTARY INFORMATION:

TITLE; ASSOCIATED FORM; AND OMB NUMBER: Cargo Movement Operations System (CMOS); OMB Control Number 0701-0165.

NEEDS AND USES: In accordance with DoD regulations governing passenger movement, this information collection is necessary to generate passenger manifests for military aircraft. The manifests are required for the safety, security, and accountability of all individuals on board. This collection applies specifically to military family members and retirees who are eligible for, and choose to travel on, a space-available basis ("Space A Cat VI"). The information is used solely to create a manifest for the specific flight the individual is taking.

When these individuals request travel at a military air terminal, a Passenger Service Agent verbally collects their name, sex, and emergency contact information. The agent then enters this data directly into the CMOS to add the traveler to the flight manifest. No paper forms are used, and the data is not used for any other reporting or statistical purposes. This process ensures that an accurate roster of all passengers is available for each flight.
