**SUPPLEMENTARY INFORMATION:**

## **I. Abstract**

The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting extension of a currently approved information collection that contains four components necessary for NMFS to manage the Western Alaska Community Development Quota Program (CDQ Program).

NMFS and the North Pacific Fishery Management Council manage the groundfish fisheries in the exclusive economic zone off Alaska under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) (Magnuson-Stevens Act). The groundfish fisheries in the Bering Sea and Aleutian Islands are managed under the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area.

The CDQ Program is an economic development program authorized under the Magnuson Stevens Act to provide eligible western Alaska villages with the opportunity to participate and invest in fisheries in the Bering Sea and Aleutian Islands Management Area, to support economic development in western Alaska, to alleviate poverty and provide economic and social benefits for residents of western Alaska, and to achieve sustainable and diversified local economies in western Alaska.

This information collection is used by NMFS to manage the small vessel CDQ fisheries, transfer quota among the CDQ groups, and authorize the use of alternative harvest regulations under certain circumstances.

This information collection contains the following four components:

- The CDQ Vessel Registration System is an online system used by the CDQ groups to add small hook-and-line catcher vessels to the CDQ vessel registration list.

Registered vessels are exempt from the requirements to obtain and carry a License Limitation Program license under regulations at 50 part 679. This system is also used to remove vessels from the CDQ vessel registration list.

- The Groundfish/Halibut CDQ and Prohibited Species Quota (PSQ) Transfer Request form is used to transfer annual amounts of groundfish and halibut CDQ and PSQ, except Bering Sea Chinook salmon, between two CDQ groups. This form is completed by the transferring and receiving CDQ groups.
- The Application for Approval of Use of Non-CDQ Harvest Regulations is used by a CDQ group, an association representing CDQ groups, or a voluntary fishing cooperative to request approval to use non CDQ harvest regulations when the CDQ regulations are more restrictive than the regulations otherwise required for participants in non-CDQ groundfish fisheries.
- An appeals process is provided for an applicant who receives an adverse initial administrative determination related to its Application for Approval of Use of Non-CDQ Harvest Regulations.

## **II. Method of Collection**

The information is collected by mail, fax, delivery, email, and electronically through eFISH. The applications are available as fillable PDFs on the NMFS Alaska Region website at <https://www.fisheries.noaa.gov/permit/alaska-community-development-quota-cdq-program-applications-and-forms>.
