Needs and Uses: The Surface Transportation Board is, by statute, responsible for the economic regulation of common carrier freight railroads and certain other carriers operating in the United States. Under the laws the Board administers, persons seeking to preserve rail service may file pleadings before the Board to acquire or subsidize a rail line for continued service, or to impose a trail use or public use condition.

When a line is proposed for abandonment, affected shippers, communities, or other interested persons may seek to preserve rail service by filing with the Board: an offer of financial assistance (OFA) to subsidize or purchase a rail line for which a railroad is seeking abandonment (49 U.S.C. § 10904), including a request for the Board to set terms and conditions of the financial assistance; a request for a public use condition (§ 10905); or a trail use request (16 U.S.C. § 1247(d)). Similarly, when a line is placed on a system diagram map identifying it as an anticipated or potential candidate for abandonment, affected shippers, communities, or other interested persons may seek to preserve rail service by filing with the Board a feeder line application to purchase the identified rail line (§ 10907). Additionally, the railroad owning the rail line subject to

abandonment must, in some circumstances, provide information to the applicant or offeror.

As to trail use, the STB will issue a CITU or NITU to a prospective trail sponsor who seeks an interim trail use agreement with the rail carrier of the rail line that is being abandoned. The CITU/NITU permits parties to negotiate for an interim trail use agreement. The parties may also agree to an extension of the negotiating period. If parties reach an agreement, then they must jointly notify the Board of that fact and of any modification or vacancy of the agreement. There is a one-year period for any initial interim trail use negotiating period (with potential extensions).

The Board makes this submission because, under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Under 44 U.S.C. 3506(c)(2)(A), federal agencies are required to provide, prior to an agency's submitting a collection to OMB for approval, a 60-day notice and comment period through publication in the Federal Register concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Dated: March 17, 2026.

Clearance Clerk.
