Abstract of information available

Human remains representing, at minimum, 16 individuals have been identified. No associated funerary objects are present. The human remains were removed from the Fisher Site (11WI5), Will County, IL, by George Langford and by the University of Chicago on an unknown date prior to 1941. They were part of the University of Chicago teaching collection until 1948. They were then in private hands until 2007, when they were donated to the Illinois State Museum.
