Abstract: The NPS is authorized by 54 U.S. Code section 100701, Protection, interpretation, and research in System, to collect this information. The NPS is requesting approval to use mobile and web-based apps (e.g., iNaturalist, eBird, Geoforms, PictureThis, Nature ID, etc.) to collect natural history and observational information during NPS sponsored-citizen science events. The information will be used to substantiate the occurrence of plant, wildlife, and invertebrate species within NPS units during these events. By using citizen science apps, information will be immediately available to all parks and others interested in species identification and advancing the knowledge of the natural world. Using mobile and web-based apps will enable parks to increase the understanding of biodiversity within the park systems.
