

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. UL26-4-000]

### **William Taylor; Notice of Pending Jurisdictional Inquiry, and Soliciting Comments, Protests, and Motions to Intervene**

On February 4, 2026, the Federal Energy Regulatory Commission (Commission) received a request from the Vermont Department of Environmental Conservation (Vermont DEC) for a jurisdictional determination for the unlicensed Baldin Brook Hydroelectric Project. The project is located on Baldin Brook in Lamoille County, Vermont.

Pursuant to section 23(b)(1) of the Federal Power Act (FPA),<sup>1</sup> a non-federal hydroelectric project must be licensed if it: (a) is located on a navigable water of the United States; (b) occupies lands or reservations of the United States; (c) utilizes surplus water or waterpower from a government dam;<sup>2</sup> or (d) is located on a stream over which Congress has Commerce Clause jurisdiction, is constructed or modified on or after August 26, 1935, and affects the interests of interstate or foreign commerce.

---

<sup>1</sup> 16 U.S.C. § 817(1).

<sup>2</sup> A project that meets condition (a), (b), or (c) is not required to be licensed if it holds a still valid pre-1920 federal permit.

Regarding condition (d) above, for purposes of FPA section 23(b)(1), headwaters and tributaries of navigable waters are Commerce Clause streams;<sup>3</sup> “post-1935” construction or modification at an existing project includes enlarging a project, such as increasing size of the reservoir, height of the dam, or generating capacity;<sup>4</sup> and projects that generate energy for transmission on the interstate grid affect interstate commerce.<sup>5</sup>

Vermont DEC requests that the Commission examine its jurisdiction for the Baldin Brook Hydroelectric Project on the grounds that the project is located on a stream over which Congress has Commerce Clause jurisdiction, was constructed after August 26, 1935, and is connected to the transmission grid.<sup>6</sup>

In response to Vermont DEC’s requests, Commission staff is investigating the jurisdictional status of the Baldin Brook Hydroelectric Project (UL26-4-000). A copy of Vermont DEC’s request may be viewed on the Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number, UL26-4-000.

<sup>3</sup> *FPC v. Union Electric Co.*, 381 U.S. 90, 94-96 (1965).

<sup>4</sup> *See, e.g., L.S. Starrett Co. v. FERC*, 650 F.3d 19, 26-27 (1st Cir. 2011); *Cent. Vt. Pub. Serv. Corp.*, 54 FERC ¶ 61,132, at 61,434 (1991) (citing *Puget Sound Power & Light Co. v. FPC*, 557 F.2d 1311 (9th Cir. 1977); *Aquenergy Systems, Inc.*, 29 FERC ¶ 61,026 (1984)).

<sup>5</sup> *See FPC v. Union Elec. Co.*, 381 U.S. at 94-95. Moreover, it is well settled that small hydroelectric projects that are connected to the interstate grid, even if they have no interstate sales, affect interstate commerce by displacing power from the grid, and the cumulative effect of the national class of these small projects is significant for purposes of FPA section 23(b)(1). *See Habersham Mills v. FERC*, 976 F.2d 1381, 1384-85 (11th Cir. 1992).
