SUPPLEMENTARY INFORMATION:

I. Background

The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Black Lung Benefits Act (BLBA), (30 U.S.C. 901 et seq.) provides benefits to coal miners who are totally disabled due to pneumoconiosis (black lung disease) and to certain survivors of miners. Miners entitled to benefits also receive medical benefits for treatment related to their pneumoconiosis and resulting disability. A miner who applies for black lung benefits must complete the CM 911 (Miner's Claim for Benefits Under the Black Lung Benefit's Act). The completed form gives basic identifying information about the applicant and is the beginning of the development of the black lung claim. 20 CFR 725.304(a) authorizes this information collection. The CM-911a (Employment History), when completed, provides a complete history of the miner's employment and helps to establish whether the individual currently or formerly worked in the

nation's coal mines and how long that employment lasted. 20 CFR 725.404(a) authorizes this information collection. This information collection is currently approved for use through October 31, 2026.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the ADDRESSES section. Written comments will receive consideration, and be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1240-0038.

Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

II. Desired Focus of Comments

OWCP is soliciting comments concerning the proposed information collection related to the Miner's Claim for Benefits Under the Black Lung Benefit's Act and Employment History. OWCP is particularly interested in comments that:
