SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of

the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0817

Title: Fueling Aviation's Sustainable Transition Grant Program

Form Numbers: N/A

Type of Review: Renewal of an information collection

Background: The FAA will use this renewed collection to continue to monitor and evaluate the performance of awarded FAST grants. FAA is collecting information on technical progress, schedule, risks, and costs for each project. This information is collected via required performance reporting deliverables, including quarterly and publicly releasable annual reports and semi-annual review presentations. A team of subject matter experts in aircraft technology development and aviation fuels from the FAA and other government agencies review these deliverables. This collection is necessary to ensure proper oversight of the use of taxpayer funding and to provide transparency to the public in the form of public reports. The FAST Grant Program was established under P.L. 117-169.

Respondents: FAST grant recipients

Frequency: Quarterly

Estimated Average Burden per Response: 134 hours per grant recipient per year

Estimated Total Annual Burden: 1876 hours

Issued in Washington, DC on April 20, 2026.

Julie Marks,

Executive Director,

Federal Aviation Administration – Office of Environment and Energy.
