SUPPLEMENTARY INFORMATION:

Proposal to renew the following currently approved collection of information:

1. Title: Fast-Track Generic Clearance for the Collection of Qualitative Feedback

OMB Number: 3064-0127

Form Number: n/a

Affected Public: Private sector, business and other for-profit entities.

Burden Estimate:

Table 1. Summary of Estimated Annual Burden (OMB No. 3064-0127)					
Information Collection (IC) (Obligation to Respond)	Type of Burden (Frequency of Response)	Number of Respondents	Number of Responses per Respondent	Average Time per Response (HH:MM)	Annual Burden (Hours)
1. Fast-Track Generic Clearance for the Collection of Qualitative Feedback, (Voluntary)	Reporting (Once)	17,000	1	01:00	17,000
Total Annual Burden (Hours):					17,000
Source: FDIC.					

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB's consolidated information system.

General Description of Collection: This information collection establishes ongoing authority for FDIC to conduct yet-to-be-determined occasional quality of service surveys under OMB's generic survey program. Once this information collection extension request is approved by OMB, FDIC will be able to obtain expedited approval of individual surveys by following a special submission process that does not require the publication of Federal Register notices for each individual survey. Generic clearance requests should be approved by OMB within five business days of submission. FDIC estimates that the generic surveys to be deployed under this information collection each will involve an average of 850 respondents, generally should not require more than one hour per respondent to complete, and are always voluntary in nature. FDIC estimates that it will deploy approximately 20 such surveys annually. The purpose of the surveys is, in general terms, to obtain anecdotal information on a voluntary basis about quality of service, regulatory burden, problems or successes in the bank supervisory process (including exams related to both safety and soundness, and compliance with consumer protection laws and regulations), the perceived need for regulatory or statutory change, and similar concerns. There is no change in the substance or methodology of this information collection and the estimated annual burden remains unchanged.

Request for Comment

Comments are invited on: (a) whether the collections of information are necessary for the proper performance of the FDIC's functions, including whether the

information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
