SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated March 17, 2026, WMSR petitioned FRA for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230 (Steam Locomotive Inspection and Maintenance Standards). FRA assigned the petition Docket Number FRA-2026-0793.

Specifically, WMSR seeks relief from the requirements of §230.16(a)(2), *Annual inspection – fifth annual inspection*, for locomotive No. 1309. In its petition, WMSR requests a six-month extension on the deadline of No. 1309’s fifth annual inspection, moving the deadline to November 1, 2026. WMSR states that the extension will “alleviate crucial shop scheduling obstacles” and enable continuation of operations through an important revenue season. The petition adds that the locomotive will operate no more than 100 service days during the extension. Further, WMSR intends to complete an annual inspection by its current deadline, May 8, 2026.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Communications received by **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]** will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.
