SUPPLEMENTARY INFORMATION: The NOAA's Science Advisory

Board (SAB) was originally established by a Decision Memorandum dated September 25, 1997. In 2017, the SAB became a non-discretionary committee when Congress mandated that the SAB shall continue to maintain two specific subcommittees [Weather Research and Forecasting Innovation Act of 2017 (Public Law 115-25) §§ 401, 508]. The SAB is the only Federal Advisory Committee with responsibility to advise the Under Secretary of Commerce for Oceans and Atmosphere on long- and short-range strategies for research, education and the application of science to resource management and environmental assessment and prediction. SAB activities and advice provide necessary input to ensure that National Oceanic and Atmospheric Administration (NOAA) science programs are of the highest quality and provide optimal support to resource management.
