

**DEPARTMENT OF ENERGY**

**Federal Energy Regulatory Commission**

**[Docket No. RM93-11-000]**

**Revisions to Oil Pipeline Regulations**

**Pursuant to the Energy Policy Act of 1992**

**Notice of Annual Change in the Producer Price Index for Finished Goods**

The Commission's regulations include a methodology for oil pipelines to change their rates through use of an index system that establishes ceiling levels for such rates. The Commission bases the index system, found at 18 CFR § 342.3, on the annual change in the Producer Price Index for Finished Goods (PPI-FG), minus zero point five five percent (PPI-FG – 0.55%). The Commission determined in an Order Establishing Index Level,<sup>1</sup> issued April 24, 2026, that PPI-FG – 0.55% is the appropriate oil pricing index factor for pipelines to use for the five-year period commencing July 1, 2026.

The regulations provide that the Commission will publish annually an index figure reflecting the final change in the PPI-FG after the Bureau of Labor Statistics publishes the final PPI-FG in May of each calendar year. The annual average PPI-FG index figures were 257.7 for 2024 and 262.8 for 2025.<sup>2</sup> Thus, the percent change (expressed as a
