### Centers for Disease Control and Prevention

[30Day-26-1397]

#### Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request “CDC’s Milestone Tracker App User Surveys” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on March 24, 2026 to obtain comments from the public and affected agencies. CDC did not receive comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (c) Enhance the quality, utility, and clarity of the information to be collected;
- (d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and
- (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street, NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

#### Proposed Project

CDC's Milestone Tracker App User Surveys (OMB Control No. 0920-1397, Exp. 5/31/2026) – Revision – National Center for Birth Defects and Developmental Disabilities (NCBDDD), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

The Centers for Disease Control and Prevention (CDC) seeks a three-year Revision of a currently approved information collection to evaluate the Milestone Tracker mobile application. The Milestone Tracker app, developed under CDC's Learn the Signs. Act Early. program, supports family-engaged developmental monitoring and promotes early identification of developmental delays and disabilities. The purpose of this data collection is to assess user satisfaction, usage patterns, and actions taken after a missed developmental milestone or developmental concern is identified within the app. The information collected will help CDC understand how users engage with the app, whether follow-up actions are taken after concerns are identified, and how the app functions as a tool to support developmental monitoring. Findings will inform future improvements and ongoing program evaluation. Without this Revision, CDC would lose access to ongoing data necessary to monitor user experience, assess

follow-up actions after identification of developmental concerns, and support continuous program improvement.

This request includes one minor, non-substantive clarification to Parent Survey 2. A brief explanatory note was added to Question 1 to clarify why the question is being asked, after some respondents indicated confusion during prior data collection. The question wording and response options remain unchanged. This clarification does not affect the methodology, data collected, or the estimated time per response, which remains five (5) minutes. This Revision also reflects an adjustment to previously approved burden estimates. The original 2023 burden projections were developed without historical response data and were based on anticipated participation levels derived from total app downloads. Actual data collected from 2023–2026 indicate substantially lower response levels. Accordingly, the number of respondents and total annual burden hours have been revised to align with observed participation trends.

CDC requests OMB approval for a revised annual burden estimate of 2,401 hours, a reduction of 39,266 hours from the previously approved 41,667 hours. There are no changes to the instruments, methodology, frequency of collection, or time per response. There is no cost to respondents other than their time to participate.

Estimated Annualized Burden Hours

Type of Respondents	Form Name	No. of Respondents	No. of Responses per Respondent	Average Burden per Response (in hours)
Parents using the <i>Milestone Tracker</i> app who complete 65% or more of a checklist using the app	Parent Survey 1	23,000	1	5/60
Parents using the <i>Milestone Tracker</i> App who complete 65% or more of a checklist using the app AND indicate a missed milestone or identify a developmental concern	Parent Survey 2	5,000	1	5/60

Type of Respondents	Form Name	No. of Respondents	No. of Responses per Respondent	Average Burden per Response (in hours)
Early childhood providers/professionals who use the <i>Milestone Tracker</i> app at least 3 times	Provider	800	1	5/60
