*Title:* Advanced Transportation Technology and Innovation (ATTAIN) Program.

*OMB Control:* 2125-0666.

*Background:* The Advanced Transportation Technologies and Innovative Mobility Deployment Program (ATTIMD), established in Section 503(c)(4) of title 23, United States Code (U.S.C.), also known as the Advanced Transportation Technology and Innovation (ATTAIN) Program, directs FHWA to award grants to eligible entities to deploy, install, and operate advanced transportation technologies to improve safety, mobility, efficiency, system performance, intermodal connectivity, and infrastructure return on investment. These grant awards demonstrate how emerging transportation technologies, data, and their applications can be effectively deployed and integrated with existing systems to provide access to essential services and other destinations. The Assistance Listing Number for this opportunity is 20.200— Highway Research and Development.

*Respondents:* Respondents include eligible state, local, transit, and municipal governmental entities. The collection impacts an estimated 120 applicants entering the initial competitive application pipeline, and a multi-year rolling pool of 65 active grant recipients managing ongoing post-award award agreements.

*Frequency:* One-time during the application phase; quarterly and annually for post-award monitoring and evaluation cycles.

*Estimated Average Burden per Response:* The administrative burden varies depending on the lifecycle phase of the collection. During the application phase, the Technical Application Template requires an average of 60 hours per respondent, and standard federal forms (SF-424 series/SF-LLL) require 2 hours. During the post-award phase, quarterly progress templates require 16 hours per response, and the Section 508-compliant Final Evaluation Report requires an average of 40 hours per respondent.

*Estimated Total Annual Burden Hours:* 14,200 hours total (comprising 7,440 hours for the application stage and 6,760 hours for the post-award reporting stage).

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

*Authority:* The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued on: May 27, 2026.
