1. Description of Request: Georgia Power Company (licensee) requests Commission approval to replace the existing flashboards with Obermeyer gates, and construct a control room to house the equipment and instrumentation needed to operate the new Obermeyer gates at the Yonah Development. Replacing the existing flashboards with Obermeyer gates would allow plant operators to regulate reservoir elevations more effectively. The licensee would install the Obermeyer gates behind a bulkhead; therefore,

no drawdown would be required. The proposed spillway upgrades are anticipated to begin in 2027 and are expected to take 18 to 24 months. The proposed upgrades would not result in any ground disturbance, and laydown areas for staging the spillway gates would be on previously disturbed and graveled areas. The project would continue to operate under the terms of its current license, and applicable Water Quality Certification.
