l. Description of Request: Current Water Quality Certification (WQC) condition 1, of the Bucks Creek Hydroelectric Project, permits temporary modifications to minimum instream flows at Bucks Creek below Bucks Lake, Milk Ranch Creek below Three Lakes, Milk Ranch Creek at Milk Ranch Conduit Diversion No. 1, and South Fork Grouse Hollow Creek at Milk Ranch Conduit Diversion No. 3, but does not permit planned temporary deviations at the Bucks Creek below Lower Bucks Lake and Grizzly Creek below Grizzly Forebay. The licensees request that amended WQC condition 1 be incorporated into the project license, replacing existing WQC condition 1. This will allow the licensees to temporarily modify the minimum instream flows for planned and/or non-emergency facility construction, modification or maintenance activities for short periods of up to three weeks, after mutual agreement among the licensees, the California State Water Resources Control Board, Forest Service, California Department of Fish and Wildlife, and U.S. Fish and Wildlife Service, at all regulated release locations noted above.
