Individuals who are hearing or speech impaired may call the Federal Relay Service at 1-800-877-8339 for TTY assistance. You may also view the information collection request (ICR) at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

As part of our continuing effort to reduce paperwork and respondent burdens, we are soliciting comments from the public and other Federal agencies on the proposed ICR described below. We are especially interested in public comments addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment—including your personally identifiable information—may be publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Service is charged with implementing the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*). The goal of the Act is to provide a means to conserve the ecosystems upon which listed species depend and a program for listed species conservation. Through our Candidate Conservation program, we encourage

the public to take conservation actions for species prior to them being listed under the Act. Doing so may result in precluding the need to list a species, may result in listing a species as threatened instead of endangered, or, if a species becomes listed, may provide the basis for its recovery and eventual removal from the protections of the Act.

This policy provides incentives to landowners, government agencies, and others to carry out voluntary conservation actions for unlisted species. It allows the use of any benefits to the species from voluntary conservation actions undertaken prior to listing under the Act—by the person who undertook such actions or by third parties—to mitigate or offset the detrimental effects of other actions undertaken after listing. The policy requires participating States to track the voluntary conservation actions and provide this information to us on an annual basis. We require this information in order to provide the entities that have taken the conservation actions with proper credit that can later be used to mitigate for any detrimental actions they take after the species is listed.

We plan to collect the following information:

- Description of the prelisting conservation action being taken.
- Location of the action (does not include a specific address).
- Name of the entity taking the action and their contact information (email address only).
- Frequency of the action (ongoing for X years, or one-time implementation) and an indication if the action is included in a State Wildlife Action Plan.
- Any transfer to a third party of the mitigation or compensatory measure rights.

Each State that chooses to participate will collect this information from landowners, businesses and organizations, and Tribal, Federal, and local governments that wish to receive credit for voluntary prelisting conservation actions. States may

collect this information via an Access database, Excel spreadsheet, or other database of their choosing and submit the information to the Fish and Wildlife Service (via email) annually. States will use this information to calculate the number of credits that the entity taking the conservation action will receive and will keep track of the credits and notify the entity of how much credit they have earned. The States will report the number of credits to the Service, and we will determine how many credits are needed by the entity to mitigate or offset the detrimental effects of other actions they take after the species is listed (assuming it is listed).
