

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-105670; File No. SR-NYSEARCA-2026-60]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to amend Rule 7.35-E

June 11, 2026.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that on May 29, 2026, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Rule 7.35-E (Auctions) to introduce an option for an exchange-traded products (“ETP”) eligible to participate in an initial public offering (“IPO”) auction to elect to commence trading in the NYSE Arca Early Trading Session. The proposed rule change is available on the Exchange’s website at www.nyse.com and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the

places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 7.35-E(f) to provide an option for an “ETP IPO Security” as defined therein to commence trading in the Early Trading Session. The proposal is substantively identical to Cboe BZX Exchange, Inc. (“Cboe BZX”) functionality that allows similarly defined ETP IPO Securities the option to commence trading at 4:00 a.m. Eastern Time (“ET”) or in the IPO Auction at 9:30 a.m. ET on the first day of trading.⁴

Given the current competitive landscape, the Exchange respectfully requests that the Commission waive the five business day notice of the Exchange’s intent to file this proposed rule change as well as the 30-day operative delay, so that the proposed rule change may become effective and operative upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act⁵ and paragraph (f)(6) of Rule 19b-4 thereunder.⁶

Background and Proposed Rule Change

Currently, IPO Auctions for any security, including Derivative Securities Products,⁷ for which NYSE Arca is the primary listing market, excluding transfers, commence trading at the

Nasdaq Stock Market LLC (“Nasdaq”) also offers substantially similar functionality. See Nasdaq Rule 4120; see generally Securities Exchange Act Release No. 103085 (May 20, 2025), 90 FR 22424 (May 27, 2025) (SR-Nasdaq-2025-011) (Notice of Filing of Amendment No. 1, and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment No. 1, To Introduce Functionality To Initiate a Trading Halt for Exchange-Traded Products on Launch Day) (“Nasdaq Approval Order”).

start of the Core Trading Session, which begins for each security at 9:30 a.m. ET.⁸ IPO Auctions follow the processing rules of a Core Open Auction subject to Rule 7.35(f).

The Exchange proposes to provide that an ETP IPO Security, defined as a Derivative Securities Product that is eligible to participate in an IPO Auction pursuant Rule 7.35-E(f), may elect to begin trading in the Early Trading Session, which begins at 4:00 a.m. ET,⁹ as an alternative to the IPO Auction. As proposed, an ETP IPO Security that elects to commence trading during the Early Trading Session would follow the processing rules of an Early Open Auction set forth in Rule 7.35-E(b).

To effectuate these changes, the Exchange would add the following text to Rule 7.35-E(f):

An “ETP IPO Security” as defined herein may elect to commence trading in the Early Trading Session. An ETP IPO Security that elects to commence trading during the Early Trading Session will follow the processing rules of an Early Open Auction. An “ETP IPO Security” means a Derivative Securities Product that is eligible to participate in an IPO Auction pursuant to this Rule.

The proposed rule text is substantially the same as Cboe BZX Rule 11.23(a)(24) and Rule 11.23(d)(2)(E)(i)(a).

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in

facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest by strengthening the Exchange's ability to oversee and police its marketplace. In addition, the Exchange believes that the proposed rule change is consistent with the Section 6(b)(5) requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.¹²

The Exchange believes that the proposed rule change will remove impediments to and perfect the mechanism of a free and open market and national market system and will benefit investors by providing market participants with additional opportunities to source and access liquidity for their orders in new issue ETPs on the Exchange. The proposed option to permit issuers to begin trading an ETP IPO Security during the Early Trading Session would provide for earlier trading opportunities in highly anticipated new issue ETPs, functionality that is already in place on other marketplaces.¹³ The Exchange believes that the issuer is best situated to determine whether to commence trading in its ETP IPO Security during the Early Trading Session or pursuant to the IPO Auction.

The proposed amendments will have no impact on the operation of trading in the Early Trading Session and would simply allow for an ETP IPO Security to begin trading on the Exchange at 4 a.m. ET at the issuer's option in the same manner that an ETP transferred from another securities exchange begins trading on the Exchange. The Exchange believes that amending its rules to extend trading hours for ETP IPO Securities will benefit investors in that they will now be able to trade ETP IPO Securities earlier in the day on the Exchange in the same manner as currently available on other marketplaces, thereby providing additional access to liquidity in securities that an ETP issuer deems appropriate for trading in the Early Trading Session. The Exchange also believes that offering the IPO Auction as a default for ETP IPO

¹³ See note 4, *supra*.

Securities with the option to participate in the Early Trading Session will allow issuers an alternative option if such issuer is concerned about unexpected volatility in ETP pricing during the Early Trading Session.¹⁴

The Exchange believes that proposed rule changes raise no novel issues as the proposed rules are consistent with early trading for ETPs already in place under the rules of other exchanges.¹⁵

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. In particular, the Exchange does not believe that the proposed rule change will impose any burden on intra-market competition that is not necessary or appropriate in furtherance of purposes of the Act because all ETP IPO Securities may commence trading in the Exchange's Early Trading Session if requested by the issuer. The Exchange also does not believe that the proposed rule change will impose any burden on intermarket competition but instead may promote competition because the proposed early trading hours for ETP IPO Securities are identical to those on Cboe and Nasdaq.¹⁶ Market participants are free to trade on the Exchange if they determine that this proposed rule change has made the Exchange a more attractive or favorable venue.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Pursuant to Section 19(b)(3)(A) of the Act¹⁷ and Rule 19b-4(f)(6)¹⁸ thereunder, the Exchange has designated this proposal as one that effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.¹⁹

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)²⁰ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requested that the Commission waive the 30-day operative delay so that the proposal can become effective upon filing. The Exchange states that the proposal would benefit ETP issuers by providing similar flexibility and an additional source of liquidity for ETP IPO securities on an exchange. Further, the Exchange states that the proposal will provide the same treatment of ETP IPOs as allowed on other exchanges. For these reasons, and because the proposal does not raise any novel legal or regulatory issues, the Commission finds that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the 30-day operative delay and designates the proposed rule change operative upon filing.²¹

¹⁷ 15 U.S.C. 78s(b)(3)(A).

¹⁸ 17 CFR 240.19b-4(f)(6).

¹⁹ In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange requested waiver of the five-day prefilings requirement for this proposal for the reasons stated in its filing, which the Commission hereby grants

²⁰ 17 CFR 240.19b-4(f)(6)(iii).

²¹ For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
