SUPPLEMENTARY INFORMATION:

A. Purpose

GSA's Office of Governmentwide Policy (OGP) is in the process of developing an application to facilitate and provide a centralized repository of Accessibility

Conformance Reports (ACRs) for information and communication technology (ICT) products.

Our ACR Repository is also in response to a requirement from OMB in M-24-08 to "explore options for establishing a standardized accessibility conformance reporting process for government procurement of ICT, which should include a central repository of vendor accessibility conformance reports."

Federal agencies often require submission of ACRs as part of quotes/bids in response to procurement solicitations. We intend to encourage product vendors to list/upload their ACRs into the repository to make it easier and more efficient for Federal employees involved in the acquisition and implementation of ICT and interested members of the public to locate ACRs when considering accessibility in the procurement process (as required by Section 508 and in the Federal Acquisition Regulation).

B. Annual Reporting Burden

There is no obligation for product owners to submit ACRs for any product. The total number of annual responses would be at the product owner's discretion.

Vendor Admin Respondents: 2500.

Vendor User Respondents: 1500.

Hours per Vendor Profile Creation: 10 mins.

Hours per Vendor User Creation: 3 mins.

ACRs Per Vendor Account: 2.

Total ACRs Uploaded: 5000.

Hours Per ACR Upload: 5 mins.

Total Burden Hours: 907 hours.

C. Public Comments:

Public comments are particularly invited on: Whether this collection of information is necessary, whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

OBTAINING COPIES OF PROPOSALS: Requesters may obtain a watermarked "DRAFT" copy of the supporting statement via the Federal eRulemaking portal at [regulations.gov](https://www.regulations.gov) by searching for Docket ID "GSA-GSA-2026-0232."
