

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2022-0019; FRL-13535-01-OFA]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for the Manufacture of Amino/Phenolic Resins (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for the Manufacture of Amino/Phenolic Resins (EPA ICR Number 1869.13, OMB Control Number 2060-0434) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through July 31, 2026. Public comments were previously requested via the *Federal Register* on August 6, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2022-0019, to EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket

without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Titel, Aiden Natural Resources Division (D230-0L), Office of Clean Air Programs, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-4836; email address: titel.aiden@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through July 31, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the *Federal Register* on August 6, 2024 during a 60-day comment period (89 FR 63933). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave., NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information

about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for the Manufacture of Amino/Phenolic Resins (40 CFR Part 63, Subpart OOO) were proposed on December 14, 1998; promulgated on January 20, 2000; and amended on: April 20, 2006; October 8, 2014; October 15, 2018; and November 19, 2020. These regulations apply to both existing facilities and new facilities that manufacture amino/phenolic resins with HAP emissions points that include: (1) reactor batch process vents; (2) nonreactor batch process vents; (3) continuous process vents; (4) equipment leaks; (5) wastewater; (6) storage vessels; and (7) heat exchangers. New facilities include those that commenced construction, or modification, or reconstruction after the date of the proposal. This information is being collected to assure compliance with 40 CFR Part 63, Subpart OOO.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: Amino/phenolic resin manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR Part 63, Subpart OOO).

Estimated number of respondents: 19 (total).

Frequency of response: Initially, quarterly, semiannually, and annually.

Total estimated burden: 23,300 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$6,240,000 (per year), which includes \$3,050,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations: 1) these regulations have not changed over the past three years and are not anticipated to change over the next three years; and 2) the growth rate for this industry is either very low or non-existent, so there is no significant change in the overall burden. There is a slight increase in labor costs, which is wholly due to the use of updated labor rates. This ICR also increases the capital/startup and O&M costs from 2014 \$ to 2024 \$ using the CEPCI CE Index.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.
