BILLING CODE 6712-01

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 26-195; RM-12023; DA 26-804; FR ID 360895]

Television Broadcasting Services St. George, Utah

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Table of TV Allotments (Table) of the Federal Communications Commission's (Commission) rules in response to a petition for rulemaking filed by KUTV Licensee, LLC (Licensee), the Licensee of full service television station KMYU(TV) (KMYU or Station), St. George, Utah (St. George). The Licensee applied for a construction permit (CP) to construct a facility on UHF channel 21 at St. George, which remains pending, and now requests that the Bureau substitute VHF channel 9 for UHF channel 21 in the Table with technical parameters set forth in KMYU's current license. The Media Bureau previously granted a petition for rulemaking submitted by the Licensee to substitute UHF channel 21 for VHF channel 9 at St. George. The Licensee later filed an application for a CP for its new channel, however, under further consideration and restraints, wishes to abandon its plans to modify its license for KMYU to operate on channel 21, and proposes to continue to operate on VHF channel 9 and specify the technical parameters of its currently licensed VHF channel 9 facility. The substitution of VHF channel 9 for UHF channel 21 in the Table will allow the Station to remain on the air and continue to provide service to viewers within its service area. Given that the Licensee proposes to utilize its currently licensed parameters, we believe VHF channel 9 can be substituted for UHF channel 21 at St. George as proposed, in compliance with the principal community coverage requirements of § 73.618(a) of the Commission's rules.
