- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Abstract: The LADC will act as the collection tool for tracking the volume of investigations that are impacted by device and software encryption and provide valuable data to decision makers to help mitigate these lawful access impacts.

Overview of this information collection:

- 1 Type of Information Collection: Extension of previously approved collection.
- 2 The Title of the Form/Collection: Lawful Access Data Collection.
- 3 The agency number, if any, and the applicable component of the Department sponsoring the collection: The sponsor is the CJIS Division, FBI, DOJ.

- 4 Affected public who will be asked or required to respond, as well as the obligation to respond: Affected Public federal, state, county, city, tribal, and territorial law enforcement agencies. The obligation to respond is voluntary and at the discretion of the contributing agency.
- 5 An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: Due to limited participation and limited data reported, the number of respondents for the LADC is based on estimates from initial usability testing.

The estimated time per response is 3 minutes, 12 seconds to complete a LADC submission.

CIV estimates that 950,000 respondents will take 3 minutes and 12 seconds to complete the form.

- 6 An estimate of the total annual burden (in hours) associated with the collection:

The total annual burden hours for this collection is 50,667 hours.

CIV estimates total 50,667 burden hours $(950000 \times 192 \text{ seconds})/60/60=50,667$

Activity	Number of Respondents	Frequency	Total Annual Responses	Time Per Response	Total Annual Burden (Hours)
Ex: Survey (individuals or households)	950000	50/annually	950000	3min 12sec	50667 hrs.
<i>Unduplicated Totals</i>	<i>950000</i>		<i>950000</i>		<i>50667</i>

- 7 An estimate of the total annual cost burden associated with the collection, if applicable: According to the cost model provided by the FBI's CJIS Division, Resources Management Section, Fee Programs Unit (FPU), the following are projections based upon prior collection activity. The cost module does not separate the costs between the two methods of collecting UCR data. The FPU cannot provide an itemized breakdown of separate UCR collections, so provided is a total cost of the FBI's UCR Program and its collection activities.
