Title I of TDA 2000 provides for duty-free treatment for certain textile and apparel articles imported from designated beneficiary sub-Saharan African countries. Section 112(b)(3) of TDA 2000 provides duty-free treatment for apparel articles wholly assembled in one or more beneficiary sub-Saharan African countries from fabric wholly formed in one or more beneficiary sub-Saharan African countries from yarn originating in the United States or one or more beneficiary sub-Saharan African countries or former beneficiary sub-Saharan African countries,

subject to quantitative limitations. This preferential treatment is also available for apparel articles assembled in one or more lesser-developed beneficiary sub-Saharan African countries, regardless of the country of origin of the fabric used to make such articles, subject to quantitative limitation. P.L. 119-103 extended preferential treatment under these programs through December 31, 2028.

The AGOA Acceleration Act of 2004 provides that the quantitative limitation will be an amount not to exceed seven percent of the aggregate square meter equivalents of all apparel articles imported into the United States in the preceding 12-month period for which data are available. See Section 112(b)(3)(A)(ii)(I) of TDA 2000, as amended by Section 2008(b)(2) of the Continuing Appropriations and Extensions Act, 2027. Of this overall amount, apparel imported during the same period under the special rule for lesser-developed countries is limited to an amount not to exceed 3.5 percent of all apparel articles imported into the United States in the preceding 12-month period for which data are available. See Section 112(b)(3)(B)(ii)(II) of TDA 2000, as amended by Section 2008(b)(3) of the Continuing Appropriations and Extensions Act, 2027. Presidential Proclamation 7350 of October 2, 2000 directed CITA to publish the aggregate quantity of imports allowed during each 12-month period in the *Federal Register*.

For the period beginning on October 1, 2026, and extending through September 30, 2027, the aggregate quantity of imports eligible for preferential treatment under these provisions is 1,690,799,016 square meters equivalent. Of this amount, 845,399,508 square meters equivalent is available to apparel articles imported under the special rule for lesser-developed countries. Apparel articles entered in excess of these quantities will be subject to otherwise applicable tariffs.

These quantities are calculated using the aggregate square meter equivalents of all apparel articles imported into the United States, derived from the set of Harmonized System lines listed in the Annex to the World Trade Organization Agreement on Textiles and Clothing (ATC), and the conversion factors for units of measure into square meter equivalents used by the United

States in implementing the ATC.
