The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose

name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

m. Description of Request: The exemptee has determined that significant repairs are required to restore operation to the project and these repairs are cost prohibitive.

Therefore, the exemptee has determined that surrendering the exemption is in the best interest of its customers. The exemptee is proposing to decommission the project by sealing off the intakes and backfilling all major components with cementitious materials and securing the site by placing fill within the existing structure walls. The dam would remain in place because it is necessary for maintaining the water supply for the City of Columbus, Ohio.
