² The products are aluminum components of Traeger's grease management system. The products are typically rectangular with rounded corners and are formed from aluminum alloy 8011 foil. They are dimensioned to conform to the drip tray of a specific Traeger grill model. The products do not have raised or rigid sidewalls; instead, the perimeter is rolled solely to provide structural integrity and prevent tearing.

³ The products are aluminum grease bucket liners. The products are made from aluminum alloy 8011 foil. While capacity, dimensions, and packaging may vary, all bucket liners are consumable components of Traeger's wood pellet grill grease and ash management system. The products are generally cylindrical or slightly tapered in shape with an open top and a rolled or reinforced rim. The product is designed to conform to a collection bucket that is a durable component of a grill. The product serves as a disposable insert for a durable component.

⁴ In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product

weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.⁵ Accordingly, if the 30th day after the filing of the application falls on a non-business day, the next business day will be considered the “updated” 30th day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the “updated” 30th day.⁶

In accordance with 19 CFR 351.225(m)(2), if there are companion AD and CVD orders covering the same merchandise from the same country of origin, the scope inquiry will be conducted on the record of the AD proceeding. Further, please note that pursuant to 19 CFR 351.225(m)(1), Commerce may either apply a scope ruling to all products from the same country with the same relevant physical characteristics, (including chemical, dimensional, and technical characteristics) as the product at issue, on a country-wide basis, regardless of the producer, exporter, or importer of those products, or on a company-specific basis.

For further information on procedures for filing information with Commerce through ACCESS and participating in scope inquiries, please refer to the Filing Instructions section of the Scope Ruling Application Guide, at <https://www.trade.gov/file-scope-ruling>. ⁶ This structure maintains the intent of the applicable regulation, 19 CFR 351.225(d)(1), to allow day 30 and day 31 to be separate business days.

Please note that this notice of scope ruling applications filed in AD and CVD proceedings may be published before any potential initiation, or after the initiation, of a given scope inquiry based on a scope ruling application identified in this notice. Therefore, please refer to the case segment on ACCESS to determine whether a scope ruling application has been accepted or rejected and whether a scope inquiry has been initiated.
